

**ITS SURVEY TIME AGAIN**

**Hit Delete on your Survey Hassles**

Many schools will be planning to plunge into the torturous task of running their parent and student surveys over the next few weeks. You will be pleased to know that your surveys do not need to be a major hassle

— you do not have to do all the slog work — preparing, printing, dispatching, reminding, coding, data entry, data analysis!!!! — the HERMES Survey Kiosk (HSK) will do all this for you.

Surveys from most school systems are in the suite of more than 200 surveys that have been quality assured.

**Benefits — use the HSK to:**

- assemble your survey from a LIBRARY of questions covering over 500 topics,
- customize and deploy each preformatted survey,
- obtain free telephone support to setup each survey — less than 30-minutes is normally required for the first survey, and most schools are comfortable with setting up subsequent surveys themselves,
- rerun any previous survey — with less than 5-minutes setup required,
- receive a data analysis report within 24-hours of the close of the survey.

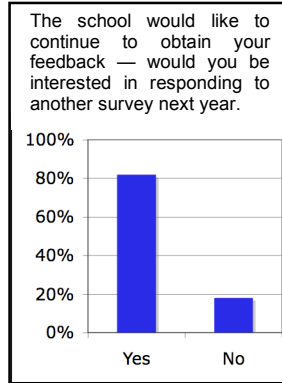

You will save time and resources by running your surveys in the HSK — an annual subscription is less than the cost of conducting two surveys per annum by other means. The HSK provides much more than a leading-edge survey system — no other survey system:

- has been designed for the workflow in schools,
- provides an extensive **LIBRARY of online surveys** specifically developed for Australian schools,
- provides schools with a **free-of-charge professional survey development service** — yes, we will design surveys for you,
- develops each survey from a research review of factors critical to improving student learning,
- is based on the **highest quality standards** for item layout and measurement scale specification — you do not require any knowledge of the **critical design issues** to develop a survey questionnaire,
- provides the correct **statistical analysis and graph** for each question — frees you from **data-entry and statistical analysis** of the survey data,
- includes **free telephone support** to assemble high quality surveys to meet your specific needs,
- provides parent surveys in **community languages**,
- provides **hardcopy surveys** for parents who do not have access to the Internet (on request),

- focuses on the most important issues for schools — the survey LIBRARY is **continuously updated**.

**Parent Feedback about the Surveys**

*Very easy to respond. Could we please have [the survey] again. I think it is great to [get] my opinion across this way. I would be interested in completing a further survey after we have been involved in the school a little longer. Covered all aspects very well. Very user friendly. Makes you think about... your childs thoughts on the school. Good to see that you asked a wide variety of*

*questions. ...important to get feedback from parents on a regular basis. [schoolname] is great and I have another 5 children that I am happy to send through their doors!!!!*
